## 10. Any other Parish Matters

10.1 Dr Malcolm Wright complained that the raised beds along West Street were not being maintained to the standard he had hoped for when he had campaigned for them many years ago and suggested additional spending by the Parish Council.

10.2 Presentation on street lighting and its impact on the environment. *How do you feel about streetlighting? Should it be turned off? Should the number of lights be increased or reduced?*

Cllr Haranzogo talked about funding and the restriction of carbon emissions, with the suggestion of an automatic control system. The cost would be in the region of £300,000, but if introduced by the County Council (CCC) it would allow the Parish Council to decide the timing of street lights.

An open discussion followed which included;

- The concept of security actual or perceived
- Light pollution
- The possible need for police patrols and ensuring vehicles were not parked on pavements to save accidents
- Eversden has no streetlighting, has a comparison been made with Eversden re crime?
- Operation if each column has a sensor – self defeating. Suggestion – motion sensor.
- Moral obligation to cut waste nationally
- Implemental of any project unknown at the moment
- the number of lights, particularly at junctions
- sensor operations and potential problems with bulbs warming up
- suggestion that every 2<sup>nd</sup> or 3<sup>rd</sup> light could be turned out
- Light pollution from the floodlights at Comberton Village College. They sometimes appear to be on when the pitch is not in use. It has been noted on occasion that they are on after 10.30pm to midnight
- A street light in Barrow Way has been out for 2 months – there are problems with the current system.
- Why are motorways so well lit when cars have headlights?
- a proposal by CCC that the timing of streetlights on A roads is to be trimmed by 40% and B roads by 60%.

The meeting agreed that the Parish Council should write to the Village College regarding floodlighting.

Cllr Harangozo summarised the consensus of the meeting to explore options of whether a particular street could trial a switch off.

The question is included in the Parish Plan questionnaire. The meeting suggested detailed costings in monetary terms and also in carbon terms. It was agreed that Cllr Harangozo would discuss further with CCC the options.
